I sent an email to the IC to see if they want the REOC to submit the 213RR.

Mark,

I received a similar request from Andy for IT support, but his was for Houston TCEQ regional staff. If you are still in the JFO or Houston Office, did you want to draft the 213R and send it to me like Andy did? Or I can do it but would like more info.

Give me a call to discuss the data entry support needs please.

Thanks.

Subject: M6H1 – Harvey Response: Data Entry Support for RM

I am requesting support for the data entry of data from the Water and Wastewater site assessment survey forms each evening after our field teams return.

Thanks,

Mark McCasland
